

Jay and Sylvia Sobhraj Foundation Donated Computers, Networking Equipment to Central Islamic Organization of Guyana

JSSSF Renewed Partnership Agreement With CIOG to Provide IT Support

The Jay and Sylvia Sobhraj Foundation recently upgraded the computer center at the Central Islamic Organization of Guyana school. The foundation installed new computers, computer server, networking device, printer, UPS, projector, and other accessories. The center which was donated by the foun-

datation in 2010 was due for a timely upgrade. The new school year started with the students now have access to Windows 10 computer operating system computers as they start the process of preparing for the CXC IT examination to be held in May 2019. The IT teacher Ms. Moses is very enthused by the newly upgraded center and said:

"I will make sure the student makes full use of the center and also take good care of the new equipment". Ms. Moses boasted that the center is by far the most equipped computer center in the schools in Guyana and see no reason why her students cannot excel at the CXC examination. Most of the time failure comes from the lack of resources as

opposed to the students' abilities to perform. Jay Sobhraj whose Foundation's motto is "Education is the great equalizer" said "no one should be denied the right to a good education, especially in computer science in this digital era." He further said it is a privilege to help the less privilege and it's not what you have that matter but it is what

you do with what you have that matters the most. Under the leadership of Mr. Nardeo Singh an IT professional, the foundation agreed to provide technical support and guidance to the IT Teachers and the center for the school year 2018 -2019. Mr. Nardeo Singh was instrumental in the upgrading of the center.
